

# COVID-19 Policy

OMCE JORDAN continues to monitor the rapidly changing developments concerning the novel coronavirus (COVID-19) pandemic.

---

Our top priority is to ensure the health and safety of our teammates, their families and the communities where we operate. We have formed an internal team to closely monitor developments and provide guidance to OMCE facilities. Like other companies, we have restricted travel, upgraded the cleaning practices at our facilities and offices, implemented remote work for teammates wherever possible, and instituted social distancing measures. Our facilities around the country are each taking steps to respond to COVID-19 based on the nature of their operations and the actions being taken by their state or local governments. Across OMCE, we are working to protect our teammates while minimizing disruptions to our customers and supply chain.

We will continue to update the website in order to provide information on any further developments concerning our business or operations.
